

IMS

The 2019 IEEE MTT-S

International Microwave Symposium

2-7 June 2019 Boston, MA

Dear Exhibitor:

Engineers love technical content and IMS offers two ways for exhibitors to present practical “nuts and bolts” solutions to attendees at no charge. The MicroApps (Microwave Applications) presentations and the Industry Workshops are designed to be opportunities for exhibiting companies to make presentations to attendees in theater and meeting room’s settings. This is an opportunity to educate your existing and potential customers and raise your visibility at IMS. Submission is simple so act now since the **Submission Deadline is 5 December 2018**

Industry Workshops provide IMS exhibitors a unique opportunity to present in-depth technical topics, via two-hour sessions, in a meeting room off the exhibit floor, free of charge. IMS2019 exhibitors are invited to submit abstracts for Industry Workshops describing state-of-the-art products and processes of interest to the microwave community. Abstract submission will be considered for oral presentation, as well as electronic distribution, to IMS attendees.

Exhibitors are also encouraged to submit proposals for 15-minute technical presentations in the IMS Microwave Applications (MicroApps) Theater on the exhibit floor. The deadline to submit abstracts for the Industry Workshops and MicroApps Presentations is 5 December 2018.

For additional information and to view the Call for Participation refer to the [Workshop and MicroApps Call for Presentations](#) available on the IMS2019 website.

Thank you!
